Fresh Peeled Garlic Cloves *Most Recent Review Date: 1/05/2026*

By: Janette Codiga / Food Safety

NOTE: PERISHABLE MUST BE KEPT REFRIGERATED AT RECOMMENDED TEMPERATURE FOR QUALITY AND TO ENSURE STATED SHELF LIFE.

Ready to eat when product is within stated shelf life and continually stored at recommended Stoarge & Shipping Temperatures.

PRODUCT NAME: FRESH PEELED GARLIC CLOVES
INGREDIENTS: 100% GARLIC (NO PRESERVATIVES OR ADDITIVES)
GRAS STATUS: Generally Recognized as Safe (Garlic - CFR Title 21, Part 184)

PROCESS:

Garlic cloves are peeled with filtered air and then rinsed with single pass ozonated water. Peeled garlic cloves are then sorted for defects and run through a cooling tunnel at 32 to 37 degrees F. Peeled garlic cloves are then packed into various types of containers (bags, pails, bins) and held in refrigeration set at temperatures between 32 – 37 degrees F.

TECHNICAL INFORMATION:
